

Take the Quiz

1

You are driving your car and there's a person riding a bike to your right just behind your car. You approach a four-way intersection with a green light and you want to make a right turn. What would you do?

A

Speed up to ensure you're in front of the bike and then brake and make your right turn.

(No, this will cut off the cyclists and cause an accident. The correct answer is B.)

B

Slow down and put on your right turn signal. Wait for the cyclist to clear the intersection and make your right turn.

Correct

C

Beep your horn loudly to notify the cyclist that you are turning in front of him.

(No, this will startle the cyclist and could cause an accident. The correct answer is B.)

2

You are driving your car and approaching a signalized intersection where you want to turn right on red. You see a person walking off the sidewalk to cross the intersection in front of you. You know pedestrians should cross when they have a green light with traffic. You should:

A

Turn quickly before the pedestrian makes it into the middle of the intersection.

(Oh No! You must always yield to pedestrians in a crosswalk. The correct answer is C.)

B

Sound your horn while turning right on red to let the pedestrian know she is not following the law.

(You should use your horn only to prevent an accident, not to "educate." The correct answer is C.)

C

Stop and wait for the pedestrian to clear the intersection before turning.

Correct

3

You're riding your bike to a party at a friend's house that will end after midnight. Check all items below that you should do that night:

A

Make sure your bike has lights in front and back.

Correct

Be sure to include answers A and C.)

B

Ride facing traffic so cars can see you coming.

(No, this is dangerous! You must always ride in the same direction as traffic. The correct answers are A and C.)

C

Wear reflective clothing and/or accessories to be more visible.

Correct

Be sure to include answers A and C.)

4

You are walking home from school and you want to cross the street to go to a store that's in the middle of the block with a signalized intersection. You would:

A

Walk to the corner and cross at the crosswalk with the light.

B

Run across the street to the store since cars have to stop for you anyway.

C

Wait until there's a break in traffic, yield to any cars and bikes on the road and move across quickly when you're sure it's safe.

Correct

(Oh No! You must yield to cars when not in a crosswalk. The correct answer is A.)

(The correct answer is A. You should cross at the signalized intersection if there is one.)

5

While driving, you come up behind a cyclist who is riding in the middle of the lane with traffic. The cyclist is moving below the speed limit. What should you do?

A

When there are no approaching cars to your left, slowly and safely pass the cyclist leaving at least three feet of distance between your vehicle and the cyclist.

B

Speed up to just behind the cyclist and beep your horn for the cyclist to move over.

C

Swerve around the cyclist to the left or right – wherever you can fit your vehicle.

Correct

(Oh No! This is very dangerous behavior and could cause an accident. The correct answer is A.)

(Oh No! This is very dangerous behavior and could cause an accident. The correct answer is A.)

6

According to Florida law, as a driver you have to make every effort to avoiding hitting a pedestrian or cyclist regardless of who has the right-of-way. Would you say this statement is:

A

True

B

False

Correct

(No, this is true. You MUST always try to avoid hitting a pedestrian or cyclist. If you do, call 911 immediately and stay until police arrive.)
