

Yield to Life/Slow Your Roll St. Augustine

Oye, listen up!
Keeping people safe in St. Augustine,
It's time to work together if you know what I mean?
Too many crashes in our city last year,
But we can change what's happening here.

Always go with traffic when you're on your bike,
Make sure you use your lights when you're out at night.
Follow signs and signals, every time you ride.
Think just like a car and you'll be alright.

Look left, look right, look every way.
Look here, look there, hear me when I say.

Yield to Life.
And Slow your Roll.
Yield to Life.
That's what I know.

When you're out walking and you cross the street,
Do it at the corner where it's easy to see.
Cross with the traffic, and obey the lights.
Wait for cars to stop and stay on the safe side.

(Chorus)

And when you're driving in your car,
Share the lane, be kind and you'll go far.
Cars can be deadly in case you didn't know.
Just follow the rules and you'll be good to go.

(Chorus)

Better safe than sorry. Know what I mean?
Yield to Life!
